COMMENTS FROM THE TOWN MANAGER'S OFFICE

Word has been received from the Road Master of the Canadian National Railways that the railroad crossing at the foot of Main Street will be paved next spring. The condition of the crossing was called to the attention of the railroad during the summer. New plank was laid between the rails, but this still left a low area between each set of tracks. This was called to their attention, but it was too late to make arrangements to do a hot-top job this fall.

Attention is called to the following Town Ordinance: "Article 3, Section XI: There shall be no overnight parking on any street or other town way from Nov. 1 to April 1." The purpose of this ordinance is to facilitate snow removal operations. Although the Ordinance establishes a date of Nov. 1st, there will be no enforcement until after the first snow storm.

As of Nov. 28th property tax collections on the 1960 tax commitment amounted to \$82,122.38, last year the total was \$96,177.52. This shows a drop of \$14,055.14 in tax collections indicating that it is not a good trend. However, on the other hand automobile excise tax collections have increased \$1,876.04 over 1959, with total collections to date of \$18,939.78.

Sincerely,
Harold L. Bean

BENSON - BROWN

In a double ring ceremony performed Saturday afternoon at the Bethel Methodist Church, wedding vows were exchanged by Miss Anne Carlene Brown, daughter of Mr. and Mrs. Stanley Brown of Bethel, and Bradley Benson, son of Mr. and Mrs. Frank Benson, also of Bethel. Given in marriage by her father, the bride wore a floor-length gown with pointed train and a semi-sabrine necklace. The lace train insert was topped by a bustle bow, and her veil of illusion was caught up in a cap of seed pearls. She carried a white prayer book centered with red roses and white split carnations with streamers of white ribbon and roses.

SUNDAY RIVER SKIWAY READY FOR SNOW

Final grooming of the trails and slopes at Sunday River Skiway is now being completed, and the area is prepared for the first snowfall. Careful grading this past summer and fall makes it possible for skiers to use large portions of the area with a minimum snowfall. The corporation will receive soon their new Sno-Cat, which will be a great aid in packing the upper slopes, a job which had to be done on skis last year. A new coat of paint has been applied to the lodge and the access road has undergone extensive improvement.

The corporation has received several inquiries from skiing families who desire to buy or rent suitable housing in the area this winter. Those having such housing available should notify a director of the Sunday River Skiway.

State Seeks Bids for Route 26 Relocation --New 150 Ft. Bridge

In Paris, the project calls for the reconstruction of a section of Route 26 (Park Street) beginning at its junction with Porter Street and extending northerly a little less than 3 miles. The first mile and three-quarters is on new location to eliminate dangerous curves, the balance of the project will correct the existing poor alignment and grades. The contract calls for a new bridge over the Little Androscoggin River about 2000 feet from the beginning of the project. The structure will consist of 3 steel and concrete spans with an overall length of 150 feet with a 30-foot roadway. The completed highway will have a 24-foot bituminous concrete pavement and 10-foot gravel shoulders.

Fisette Home at Gilead Lost in Early Sunday Morning Fire

The home of Mr. and Mrs. Amedee Fisette in Gilead village was destroyed with most of its furnishings by a fire early Sunday morning. The loss was partially covered by insurance.

The blaze was discovered by a neighbor who aroused the Fisettes about 2:30 a. m. The Bethel and Gorham fire departments were called and confined the blaze to the building, pumping water from the river.

The fire started in the shed and had spread little when Mr. Fisette reached the scene. He was able to save his automobile nearby and some furnishings were removed from the house.

The town hall a few feet from the burned building was not scorched, due to a heavy insulating covering on the Fisette home, the efforts of the firemen and a favorable wind.

SCHOOL NEWS

Locke Mills pupils recently attended a showing of a safety film entitled "How a Schoolboy Patrol Operates." The film was shown by Trooper Boudreau of the State Police Traffic Records Bureau who also spoke on school safety and awarded belts and badges to members of the school patrol. The equipment was provided by AAA as an aid to school safety programs.

Crecent Park seventh and eighth graders will hold a record hop at the Community Room this Friday from 7:30 to 9:00 p. m. Refreshments will be served.

All schools in Union 22 will close for Christmas vacation on Friday, Dec. 16, and reopen on Tuesday, Jan. 3.

The Locke Mills School Building Committee at its most recent meeting discussed the problem of modernizing the City School and the cost involved. Alternative solutions were also considered. Before reaching a decision, the committee felt that a survey of Greenwood School needs should be made. The proposed survey will include pupil enrollment projections and a population study in addition to the building and transportation cost studies. Preliminary survey reports will be given at the next SBC meeting on December 12 at the Locke Mills School.

Schools were closed last Tuesday when icy road conditions made school bus operation hazardous.

A group of Bethel teachers met Nov. 21 to discuss the recent SRA Reading Laboratory meeting at Norway. Considerable interest was shown in the possibility of adding the laboratory to the present reading program. It was decided however that it would serve as a supplement only and would not replace the present basic reading program. If adopted, the reading laboratory would be used flexibly for developmental reading—allowing individual pupils to move ahead on their own—and as an aid to pupils to improve their spelling and vocabulary.

Each reading lab includes books with a wide range of

Gould Opens Season Away

Coch Francis Berry will take his 1960-61 basketball squad to Berlin to meet Notre Dame in the opening game of the season on Wednesday, Dec. 7. The squad has been cut to 14 men with only three lettermen returning. The three lettermen are Dick York, John Kelley and Captain Alex Foster. The rest of the squad, except for two new men, are "graduates" of last year's J.V.'s. The possible starting line-up could be Scott Cummings and Paul Hamilton at the forward berths with John Kelley at center. Possible back court starters are Alex Foster, Dick York, and Dick Ramage. Jim Bartlett, forward, and Owen Melville, guard, should also see considerable service. Rounding out the squad are Don Rice, Dave Lombard, Lyn Felt, Em Merrill, Alan Ring, and Wayne Perry.

Coach George Bowhay's J. V.'s will open their season in the preliminary game at 6:30. The underclassmen are mostly beginners and lack experience. At the present time there are very few promising men to pick for starting positions.

Dr. and Mrs. Jean A. Curran, Boston, Mass., were guests of Headmaster and Mrs. Edmond J. Vachon on Monday and Tuesday of this week. Dr. Curran is senior consultant of the Bingham Associates and while in Bethel addressed the students of Gould Academy on "Health Careers" and showed the most interesting and poignant film "I am a doctor," at a special assembly on Tuesday morning.

reading levels. For example, the grade 4 lab books reading levels range from grade 2 to grade 7. This allows a grade 4 pupil to either correct weaknesses or to move ahead according to his individual ability. Each pupil is aided in determining his reading level by means of a reading placement test which accompanies each lab. Thereafter, as the pupil reads he keeps a record of his progress on a record card.

COUNTRY FLAVOR

SLEEP DISPENSER

Time was when a solid citizen could buy a flannel nightgown that came down to his instep and provided sufficient material to wrap around his legs. With a warm nightgown over a union suit, a deep feather bed and a couple of warm blankets, a man dropped pleasantly into his daily period of unconsciousness.

Now some scientist has come up with the idea that man needs only four half hour periods of sleep a day. A man will wear an electrical gadget that will put him to sleep for 30 minutes and then wake him. The scientist envision a 24 hour working day for us, with four half hour periods for sleep.

The countryman is opposed to such goings-on. He understands that in farming techniques of population children stay on until 18 or 20 or 25 or 30 or

en later. This is a democratic nation and if that is what misguided city folks choose to do, it is their inalienable right. But the countryman proposes to go to bed at nine o'clock on a winter's night and he doesn't want to wear any super-scientific contraption on his head. He may put on a warm woolen night cap to protect an area with sparse foliage, but that won't wake him in 30 minutes to face life's problems. We feel most citizens will agree that they want to escape taxes, politics, television and relatives for a few consecutive hours in each day.

LETTERS TO THE EDITOR

November 25, 1960

Editor
Bethel Citizen
Bethel, Maine
Gentlemen:

I want to take this opportunity to thank the voters of Oxford County who worked for me and voted for me as a candidate for re-election to the State Senate in the recent election.

I regret the results of this election, but I am proud to have been associated with the Democratic Party in Maine. Our main objective has been to work for a progressive program for our State. Under the leadership of Governor Muskie and Governor Clauson the Democratic Party has been responsible for the Department of Economic Development, which has been instrumental in attracting one-hundred twenty-six new industries to Maine since its creation. These new industries have furnished employment for 3,875 people. The best known example of this is, of course, the new Raytheon plant in Lewiston, which will provide several hundred new jobs in this area. We succeeded in establishing the Maine Industrial Building Authority which has increased available capital for new plant construction, through a State guaranteed loan program. This far reaching program in the relatively short time it has been in existence has made possible plant construction in the amount of over \$5,000,000 with another \$1,000,000 worth of buildings in the planning stage. One example of this is the Wilton Tanning Co. in Wilton, which will create at least 100 jobs. It should be borne in mind that this was done at no cost to the taxpayers of Maine.

Under Democratic leadership we enacted a \$1.60 minimum wage law. We aided rural education through the School Administrative District Act. We have tried to improve our State government through the work of a bi-partisan citizens committee, acting on the recommendations of a professional study. We have given Maine a more responsible fiscal policy, through the system of line budgeting, initiated by Governor Muskie.

We hope that the present one-party domination of Maine is not a permanent condition. Because of our record and our program we believe we still have much to offer our State. In all our work we have encouraged our fellow citizens to study the issues, examine the candidates and the party platforms, and make their judgments on the basis of the facts. We think that is the way to better government in Maine.

The next two years will be critical ones for the State of Maine. As Frank Coffin said in his concession statement "I dare hope that my efforts and our program, even in defeat, have contributed something of value to Maine". In my conviction that in 1965, with a continuation of the kind of responsible party leadership we have provided in the Democratic party in Maine, that the work we have done will be continued.

Very truly yours,
Murray W. Thurston

Investments Under The New Administration
Here are some policies that appear to be reasonable expectations under the new Administration. We have pointed out some stocks that we feel will benefit from these policies. An easier money policy appears likely, which would result in lower interest rates and consequently higher prices for bonds. Some common stocks with generous yields well protected by earnings are recommended, including: Columbia Gas, Drewry's Ltd., Lerner Stores, May Dept. Stores, MetLife, Standard Oil N.J. and United Artists.

Stepped-up government spending is indicated leading us to recommend Boeing, Douglas, General Dynamics and Lockheed in the defense field. Beneficiaries from other government programs might include: American Sealing, Caterpillar Tractor, Deere & Co., International Harvester and Johns-Manville. Labor may have more influence and consequently labor-saving devices should be in greater demand. Beneficiaries include: Automatic Center, Cincinnati Milking, IBM, National Cash Register and Universal Match. THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

Thursday, December 1
Read Romans 8:35-39.

He healeth the broken in heart, and bindeth up their wounds. (Psalm 147:3).

Years ago a marvelously skillful craftsman worked in a tiny shop in one of our cities. He specialized in the restoration of what appeared to be hopelessly broken things. When a patron brought a ruined vase, a shattered statue, a shivered piece of glass to him, there was no hope until it was entrusted to his care!

With loving, patient care, he would slowly fit together the broken thing would be made whole again. Years of the most patient, careful, persistent toil had gone into the mastery of his skill. No other possessed it; was this man's alone!

The comfort of God is like

that! It is God's skill, and no human has ever acquired it—and never will! As long as our broken and sinful lives are left in our hands, they remain broken. Only by placing them in God's hands can they be restored.

PRAYER: Eternal God, nearer to us than breathing and closer than hands and feet, we commend ourselves anew to Thy keeping. In all the experiences of life, we pray for Thy continuing favor and the consciousness of Thy presence; through Jesus Christ, our Redeemer. Amen.

Thought For The Day

The secret of having God's comfort is in placing things in His hands. —Leonard S. Clark (Idaho)
